Dor Cohen

About Me

Web3 and fintech professional with experience across QA, product, and business development. Co-founded SeaSwap and previously founded EmeraldDAO, gaining hands-on experience in blockchain integrations, product design, and ecosystem growth. Passionate about decentralized innovation and bridging the gap between technology and business.

Experience

Seaswap (Dapp project)

Co Founder

2025-present

- Leading product development, business strategy, and go-to-market execution for a DEX aggregator.
- Managing MVP development and coordinating partnerships, community growth, and marketing efforts.
- Conducting user research and defining product-market fit within the DeFi and Layer-2 ecosystem.

Utila

QA engineer

2023-2025

- First QA hire; built all test plans, workflows, and documentation from scratch.
- Tested the entire product stack: web, mobile, Chrome extension, and API.
- Led QA for dozens of blockchain and exchange integrations & major core features.
- Acted as a key link between product and engineering to ensure smooth and reliable releases.

Emerald Dao Co founder

2020-2021

- Founded one of the first DAOs on the Cardano blockchain, leading product design and governance structure.
- Built and managed a community of 400+ members, coordinating proposals and voting processes.

Israeli Defense Forces

- Combatant on a battleship in the Israeli navy 2019-2020
- Combatant in the air force 2018-2019

Education

Tel Aviv University

2022-2025

Graduated bachelor's degree in Economics and Business Administration.

Volunteer

Bnei HaMoshavim

2014-2017

- Organized youth programs and events; led teams and managed logistics.
